Fish Meal is an excellent source of organic nitrogen and phosphorus and is recommended for vegetable gardens, flower beds and all types of outdoor plants, trees and shrubs. Fish Meal stimulates soil microbial life, promotes vigorous root development and provides an early season boost for all your plants.

**Guaranteed Analysis**
- **Total Nitrogen (N)**: 8.0%
- **Water Insoluble Nitrogen**
- **Available Phosphate (P₂O₅)**: 6.0%
- **Calcium (Ca)**: 5.0%

**Derived from:** Fish Meal

**Listed by the Organic Materials Review Institute (OMRI) for use in organic production.**

**Application Rates**
- 2.5 cups = 1 lb; ½ cup = 1.6 oz; 1 tbsp = 0.4 oz

**Vegetable Gardens:**
- To prepare new gardens, apply 2.5-5 lbs per 100 square feet and thoroughly mix into the top 3" of soil. For new transplants, add 1-2 tbsp per hole, mix into soil and water in well. To feed established plants, side dress 1-2 oz, depending on size of plant and desired growth rate, once each month during the growing season.
- Containers: For new plantings, add 1-2 tbsp per gallon of soil and mix thoroughly. OR add 2.5-5 lbs per cubic yard. For established plants, lightly mix 1-2 tbsp per gallon into the soil surface once each month during the growing season.

**Trees & Shrubs:**
- Spread 1-2 lbs per 1" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well. For new trees, prepare transplant hole.

**Row Crops/Acreage:**
- Apply 300-500 lbs per acre depending on specific crop needs or required pounds of actual nitrogen per acre.

**Net Wt. 50 lbs., 22.6 kg.**
