

2-6-4 Liquid Bloom

1 US Quart (946 ml)

GUARANTEED ANALYSIS

Total Nitrogen (N)	2.0%
1.5% Water Soluble Nitrogen	
0.5% Water Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅)	6.0%
Soluble Potash (K ₂ O)	4.0%
Sulfur (S)	2.5%

Derived from: Fish Protein Hydrolysate, Bone Meal, Langbeinite, Lysine, Molasses, Soy Protein Hydrolysate, Potassium Sulfate, Kelp (*Ascophyllum nodosum*), Potassium Hydroxide and Phosphoric Acid (for pH stabilization).

PRODUCT INFORMATION:

Down To Earth Liquid Bloom is designed to promote enhanced bud, flower, fruit and root development in all types of plants including flowers, fruits, herbs, ornamentals and vegetables. This easy to use concentrated liquid formula provides primary and secondary nutrients needed for beautiful blooms while sustaining overall plant growth. Use Liquid Bloom throughout the growing season to support the natural progression of plant development for prolific flowers, flavorful fruits and a wonderful harvest.

Net Contents: 1 US Quart (946 ml)
Net Weight: 2.25 lbs (1.02 kg)

DIRECTIONS FOR USE:

Shake Well Before Using

Down To Earth Liquid Bloom is most effective as a soil drench and is designed for plants grown in garden soils, potting soils or soilless media.

Soil Drench: Use ½ - ¾ cup (4-6 oz) per gallon of water **OR** 2-5 gallons per acre. Apply around the base of plants, at the drip line of trees or through an irrigation system. Begin applications when planting, transplanting or anytime during active root development. Repeat application twice monthly or as needed.

Foliar Spray: Use 4 Tbsp (2 oz) per gallon of water **OR** 1-2 gallons per acre. For best results, combine with a natural surfactant to increase adhesion to the leaf surface. Spray foliage to the point of run-off starting at the 4-leaf stage for vegetables and flowers. Repeat application weekly or as needed.

Containers: Use 2-4 Tbsp (1-2 oz) per gallon of water depending on growth stage of plant. Repeat application with each watering or as needed.

Houseplants: Use 2 Tbsp (1 oz) per gallon of water. Apply solution around the base of plants. Repeat application every other month or as needed.
