ALL NATURAL FERTILIZER

Bio-Turf

8-3-5

Bio-Turf is an entirely natural granular lawn fertilizer designed to provide a slow, steady release of nutrients and encourage deep root development to help reduce watering requirements. Bio-Turf's nitrogen-rich formula boosts early season growth while its extra potassium reduces seasonal stress due to temperature change and drought. Bio-Turf is also ideal for heavy-feeding garden vegetables like corn, tomatoes and leafy greens.

GUARANTEED ANALYSIS		APPLICATION RATES													
TOTAL NITROGEN (N)	8.0%	2.5 cups ≈ 1 lb; ¼ cup ≈ 1.5 oz; 1 tbsp ≈ 0.4 oz													
0.8% Water Soluble Nitrogen		Lawns: In spring, apply 6-12 lbs per 1,000 square feet and water in well. For summer and fall applications, decrease amount to 5-10 lbs per 1,000 square feet. Three to four applications per year are recommended and results may be enhanced if applied following aeration. For new lawns, apply 12 lbs per 1,000 square feet and mix into top 3" of soil before seeding or sodding. Covers up to 8,000 sq.ft.													
7.2% Water Insoluble Nitrogen															
AVAILABLE PHOSPHATE (P ₂ O ₅)	3.0%														
SOLUBLE POTASH (K ₂ O)	5.0%														
Derived from: Feather Meal, Meat and Bone Meal, Blood Meal and Langbeinite		Spreader Settings													
*7.2% Slow Release Nitrogen from feather meal and meat and bone meal.		<table border="1"> <thead> <tr> <th>Lib. 1/2 lb	N/O	P/O	18												
1 lb	U	W	18 x 2 passes												
Listed by the Organic Materials Review Institute (OMRI) for use in organic production.		Vegetable Gardens: To prepare new gardens, apply 3-6 lbs per 100 square feet and thoroughly mix into the top 3" of soil. For new transplants, add 1-2 tbsp per hole, mix into soil and water in well. To feed established plants, side dress 1-2 oz., depending on size of plant and desired growth rate, once each month during the growing season.
