

Made in Eugene, Oregon

ACIO Mix is blended specially for acid soil loving plants like blueberries, rhododendrons, azaleas, hydrangeas, evergreen trees and shrubs, raspberries and other plants that thrive in a low pH soil. To encourage lush flowers and fruit, apply Acid Mix in early spring for vegetative growth and again when blooms appear. Fall applications fuel root growth and boost resistance to extreme winter temperatures.

SULFUR (S)

MAGNESIUM (Mg)

For new berry plants (1-2 years old), prepare transplant hole and mix 1 cup with the backfill soil. Use amended soil to fill in around the new plant and

To feed established berries, apply 1 cup per plant in early spring, mix into soil surface and water in well. Repeat application when blooms appear and again in fall at half the recommended amount.

# **Outdoor Containers:**

For new plantings, add 2-4 Tbsp per gallon of soil and mix thoroughly. To feed established container plants, lightly mix 1-2 Tbsp per gallon of soil into the soil surface once each month during the growing season.

## Trees & Shrubs:

In spring, spread 1 lb per 1" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well.
