Vegetable Garden is full of powerful plant
nutrition to help your garden grow! Its all-purpose formulation
provides a perfect start for your sprightly spring veggies, gives your
summer tomatoes superpowers, and is fantastic for growing your
favorite fragrant herbs. A versatile mix for backyard gardens and
hobby farms, Vegetable Garden's broad nutrient profile is ideal for use
throughout the growing season. *Grow and Eat Your Veggies!*

APPLICATION RATES

Approximate Conversions: 2 1/2 cups = 1 lb 1/2 cup = 3.2 oz 1 Tbsp = 0.4 oz

Tomatoes:

For new 4" tomato starts, prepare transplant
holes and mix 2-3 Tbsp with the backfill soil
for each plant. Use amended soil to fill in
around the new plant and water in well.

For 1 gallon tomato transplants, use
1/4- 1/2 cup per plant.

To feed established tomatoes, side dress
1/4- 1/2 cup per plant, depending on plant size
and desired growth rate, once each month
during the growing season

Containers:

For new plantings, add 1-2 Tbsp per gallon
of soil and mix thoroughly OR add 5-10 lbs
per cubic yard.

For established plants, lightly
mix 1-2 Tbsp per gallon into
the soil surface once each
month during the
growing season.

Vegetable Gardens & Flower Beds:

To prepare new gardens, apply 2.5-5 lbs
per 100 square feet and thoroughly mix
into the top 3" of soil.

For new transplants, add 1-2 Tbsp per hole,
mix into soil, add transplant, fill in with soil
and water in well.

To feed established plants, side dress
2-4 oz, depending on plant size and desired
growth rate, once each month during the
growing season.

Trees & Shrubs:

Spread 1 lb per 1" of trunk diameter around
the base outwards to the drip line, mix into
soil surface and water in well.

For new trees, prepare transplant
hole and mix 1-2 cups with the
backfill soil. Use amended
soil to fill in around the
new tree and water in well.
