Alfalfa Meal is an exceptional source of plant-derived nutrients for the garden. It is highly recommended for roses as well as all vegetables, herbs, flowers and shrubs. Our Alfalfa Meal is derived from sun cured, non-genetically modified alfalfa that is freshly milled to preserve the highest plant nutrient value.

GUARANTEED ANALYSIS

| | | |
|-----------------------------------|------|--|
| TOTAL NITROGEN (N) | 2.0% | Listed by the Organic Materials Review Institute (OMRI) for use in organic production. |

| SOLUBLE POTASH (K ₂ O) | 1.0% | F002174 |

Derived from: Alfalfa Meal

APPLICATION RATES

Approximate Conversions: 2 cups = 8 oz 1/2 cup = 2 oz 1 Tbsp = 0.25 oz

Roses:

For existing roses, apply 1/2-1 cup per plant in early spring and thoroughly mix into the soil surface.

For new roses, add 1/2-1 cup per hole, mix thoroughly into soil and water in well. Repeat application when blooms appear and again in fall at half the recommended amount.

Vegetable Gardens & Flower Beds:

To prepare new gardens, apply 2-4 Tbsp per square foot and thoroughly mix into the top 3" of soil.

For new transplants, add 1-2 Tbsp per hole, mix into soil and water in well.

To feed established plants, side dress 1/2 cup once each month during the growing season to promote plant growth.

Containers:

For new plantings, add 2-4 Tbsp per gallon of soil and mix thoroughly OR add 1/2 cup per cubic foot.

For established plants, lightly mix 1-2 Tbsp per gallon into the soil surface once each month during the growing season.
