Alfalfa Meal

2-0-1

Scan for more information
about this product

Alfalfa Meal is an exceptional source of plant-derived nutrients for the garden. It is highly recommended for roses as well as all vegetables, herbs, flowers and shrubs. Our Alfalfa Meal is derived from sun cured, non-genetically modified alfalfa that is freshly milled to preserve the highest plant nutrient value.

APPLICATION RATES

Approximate Conversions 2 cups ≈ 8 oz ½ cup ≈ 2 oz 1 Tbsp ≈ 0.25 oz

Roses & Perennials:

For existing roses, apply ½-1 cup per plant in early spring and thoroughly mix into the soil surface.

For new roses, add ½-1 cup per hole, mix thoroughly into soil and water in well. Repeat application when blooms appear and again in fall at half the recommended amount.

Trees & Shrubs:

For new plants or transplants, prepare transplant hole and mix 1-2 cups with the backfill soil. Use amended soil to fill in around the new plant and water in well.

For mature plants, Spread up to 1 lb per 2" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well.

Vegetable Gardens & Flower Beds:

To prepare new gardens, apply 2-4 Tbsp per square foot and thoroughly mix into the top 3" of soil.

For new transplants, add 1-2 Tbsp per hole, mix into soil and water in well.

To feed established plants, side dress ½ cup once each month during the growing season to promote plant growth.

Outdoor Containers:

For new plantings, add 2-4 Tbsp per gallon of soil and mix thoroughly OR add ½ cup per cubic foot.

For established plants, lightly mix 1-2 Tbsp per gallon into the soil surface once each month during the growing season.
