Fertilizing Established Trees

Citrus Mix[™]

6-3-3

downtoearthfertilizer.com @downtoearthfertilizers

Citrus Mix[™] is your go-to fertilizer for growing delicious oranges, lemons, limes and even avocados. With vibrant fruits, fragrant blossoms and appealingly glossy foliage, citrus trees are a particularly satisfying compliment to the home garden or orchard. Our Citrus Mix is specially formulated with primary and secondary nutrients as well as select micronutrients for lush new growth, abundant green foliage and bountiful blossoms and fruit. Use it to feed not only citrus trees, but other fruit trees, vines and ornamentals in your garden.

GUARANTEED ANALYSIS

TOTAL NITROGEN (N)	6.0%	Derived from: Feather Meal, Fish Bone Meal, Alfalfa Meal, Langbeinite, Basalt, Potassium Sulfate, Zinc Sulfate and Seaweed Meal
6.0% Water Insoluble Nitrogen		
AVAILABLE PHOSPHATE (P ₂ O ₅)	3.0%	ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S):
SOLUBLE POTASH (K ₂ O)	3.0%	2.5% Humic Acids derived from Leonardite
CALCIUM (Ca)	3.0%	*Humic Acids may increase micronutrient uptake
SULFUR (S)	2.0%	Listed by the Organic Materials Review Institute (OMRI) for use in organic production.
IRON (Fe)	0.5%	
ZINC (Zn)	0.5%	F002174
0.5% Water Soluble Zinc		

Approximate Conversions

3 cups ≈ 1 lb
½ cup ≈ 2.7 oz
1 Tbsp ≈ 0.3 oz

APPLICATION RATES

Citrus Trees:

Most varieties of citrus require fertilization 3-4 times per year with typical applications in late winter (Jan-Feb), late spring (May-June) and early fall (Sept-Oct). Apply 1 cup per 1" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well.

A liquid or foliar fertilizer may be applied to mature fruit bearing trees throughout the growing season to maximize fruit production.

For new trees, prepare transplant hole and mix 1 cup of Citrus Mix with the backfill soil. Use amended soil to fill in around the new tree and water in well. Use half the amount recommended above per application to fertilize 1-2 year old citrus trees.

Containers & Houseplants:

For new plantings, mix 1/2 cup per cubic foot of soil and mix thoroughly.

For established citrus trees, apply 2-4 Tbsp per gallon of soil 4-6 times throughout the year.
